EDUCATION

Bachelor of Computer Applications (BCA)
Dr. Preeti Global University | 2024 – 2027 (Pursuing)

Professional Summary

• Developed and maintained full stack web applications using React.js, Node.js, Express.js, and MongoDB.
• Designed and integrated RESTful APIs following MVC architecture.
• Implemented JWT-based authentication and authorization.
• Optimized backend APIs to improve performance and response time.
• Worked in Agile team environment using Git and GitHub for version control.

PROFESSIONAL EXPERIENCE

Ruby Roman | Full Stack Developer · May 2024 to Aug 2024, Ghaziabad, UP

• Developed and maintained full stack web applications using React.js, Node.js, Express.js, and MongoDB.
• Built RESTful APIs and implemented JWT-based authentication.
• Improved website performance by optimizing API responses and frontend rendering.
• Worked in a team environment following Agile development practices.

PROJECTS

- **Real Estate – MERN Stack Web Application**
  - Developed a real estate platform for browsing properties available for buying and renting.
  - Implemented property search and filtering with detailed property listings.
  - Built user authentication and property management features with RESTful APIs.
  - Created responsive React.js interfaces and integrated MongoDB with Node.js/Express.js.

  Live Project: https://real-estate-seven-orpin.vercel.app/
- **Smart Shop – MERN Stack E-commerce Application (Jan 2024)**
  - Implemented JWT-based authentication for secure user login.
  - Integrated payment gateway for online transactions.
  - Developed REST APIs for products, orders, and users.
  - Built responsive UI with dynamic filtering and cart management.
- **Food Delivery Site – MERN Stack Web Application**
  - Implemented restaurant dashboard for menu management and order processing.
  - Added live delivery tracking using WebSocket and real-time notifications.
  - Developed user authentication system with role-based access control.
  - Optimized backend APIs to ensure quick response and smooth UX.
- **FitFusion Gym – Frontend Web Application**
  - Created interactive workout schedule pages and BMI calculator using JavaScript.
  - Added membership management and trainer information sections with responsive design.
  - Designed an attractive and mobile-friendly layout using Bootstrap components.
  - Focused on clean UI/UX, faster loading, and cross-browser compatibility.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, RESTful APIs
- **Database:** MongoDB
- **Authentication:** JWT (JSON Web Token), NextAuth, Role-Based Access Control (RBAC)
- **Tools:** VS Code, Git, GitHub, Postman
- **Concepts & Architecture:** MVC Architecture, CRUD Operations, API Integration, Client-Server Architecture
